

Powder Products Delivery Programme & Applications

Applications:

- Welding Electrodes
- Hardfacing Electrodes
- Stainless Steel Welding
- Powder Metallurgy
- Thermal Spraying
- CVD Coatings
- Hardmetal

Products:

- Chromium Powder
- Chromium Carbide Powder
- Chromium 90 Powder
- Nitrided Chromium Powder
- High Carbon Chromium Powder
- Extra High Carbon Chromium Powder
- Ferro Titanium (25%, 30%, 40%, 70%) Powder
- Ferro Niobium Powder
- Ferro Silico Titanium Powder
- Ferro Boron Powder
- Ferro Silico Boron Powder
- Nickel Boron Powder
- Chromium Boron Powder
- Ferro Vanadium Powder
- Nickel Aluminium Powder
- Ferro Aluminium Powder
- Titanium Aluminium Powder
- Aluminium Powder
- Ferro Tungsten Powder
- Ferro Silico Zirconium Powder
- Manganese Powder Ferro Manganese (High, Medium and Low Carbon) Powder
- Tungsten Powder
- Nickel Powder
- Titanium Powder
- XTiC Powders (FeNbC, FeWTiC and FeTiC)

These products are supplied in accordance with a Quality Assurance system which meets the standards of ISO9001.

Powder sizes typical as below for welding consumable production:

- | | |
|----------------------|--------------------------------------|
| MMA stick electrodes | e.g. minus 300 micron |
| Hardfacing wires | e.g. minus 300 micron plus 63 micron |
| Flux cored wires | e.g. minus 100 micron |

Other Powders

A wide range of metal and alloy powders are also available from other companies associated and within the AMG group.

Elektrowerk Weisweiler, EWW (Germany)

- Nitrogen containing Low Carbon Ferro Chrome, N₂LCFeCr
- Nickel Titanium Aluminium, NiTiAl
- Silico Manganese Aluminium, SiMnAl
- Low Carbon Ferro Chrome, LCFeCr

Gesellschaft für Elektrometallurgie, GfE (Germany)

- Ferro Vanadium, FeV
- Chromium metal, Cr for contact materials
- Titanium based powders for medical, technical and aerospace applications
- Pure metal powders for coating technology

Aluminium Powder Company, ALPOCO (United Kingdom)

- Atomised Aluminium, Al and Aluminium Silicon, AlSi powders
- Atomised Aluminium, Alloy powders and Aluminium based premixes

Available to customers' requirements and size controlled by particle size analysis.
